To

The Principal Secretary,
Department of Environment and Forests,
Government of Bihar, Sinchai Bhawan,
Secretariat, Patna.

Sub: Diversion of 15.06 ha of forest land for widening and strengthening of NH-327E (0.00 - 39.00 Km) Galgalia-Thakurganj-Bahadurganj Road in Kishanganj district of Bihar.

Sir,

After due consideration of the proposal of the State Government and on the basis of decision of Regional Empowered Committee held on 29.5.2018, the Central Government, hereby, conveys “in-principle” approval for diversion of 15.06 ha of forest land for widening and strengthening of NH-327E (0.00 - 39.00 Km) Galgalia-Thakurganj-Bahadurganj Road in Kishanganj district of Bihar, subject to the fulfillment of the following conditions.

1. Legal status of forest land proposed for diversion shall remain unchanged.

2. The State Govt. shall charge the Net Present Value (NPV) of forest area proposed to be diverted under this proposal from the user agency as per the Orders of the Hon’ble Supreme Court of India dated 28.03.2008, 24.04.2008 and 09.05.2008 in Writ Petition (Civil) No.202/1995 and the guidelines issued by this Ministry vide its letter No. 5-3/2007-FC dated 05.02.2009 in this regard.

3. Additional amount of NPV of the diverted forest land, if any, becoming due after finalization of the same by the Hon’ble Supreme Court of India, shall be charged by the State Government from the user agency.

4. Compensatory Afforestation over the degraded forest land twice in extent to the forest land being diverted shall be raised and maintained by the State Forest Department at the cost of the user agency. The user agency shall
transfer the cost of plantation and its maintenance for 10 years (revised as on
the date to incorporate the existing wage structure) to State Forest Department.

5. User Agency should ensure that the compensatory levies (CA cost, NPV, etc.)
are deposited through challan generated online on web portal and deposited in
appropriate bank online only. Amount deposited through other mode will not
be accepted as compliance of the Stage-I clearance.

6. The boundary of the forest land proposed for diversion, shall be demarcated
on ground at the project cost, by erecting four feet high reinforced cement
concrete pillars, each inscribed with its serial number, DGPS coordinates,
forward and back bearing and distance from adjoining pillars etc.

7. Felling of trees as required should be done expeditiously, under the supervision
of the State Forest Department so that project works are not affected.

8. Modern technology will be used to translocate to the extent possible only
those trees which are unavoidable and needs to be removed so that minimum
numbers of trees are felled.

9. The user agency shall gap plant/plant tall saplings/tree species with low cost
vegetative tree guards on either side of the road at project cost, as per IRC
specification, with maintenance of 5 years, wherever possible and technically
feasible.

10. Extra underpasses excluding the existing culverts, bridges and Hume pipe
passages shall be constructed/renovated by the User Agency for the safe
passage of the wildlife including amphibians and reptiles, so that no adjacent
underpasses are more than 500 meters apart.

11. The designing of new culverts/bridges and redesigning the existing ones over
the natural streams/rivers/canals should be done in such a manner that it does
not hamper the natural course of water, does not give rise to water-logging, so
that it does not hamper movement of wild animals including fishes &
amphibians migration.

12. Earth or any other material shall not be brought from and debris resulting
during construction shall not be disposed of in the adjoining forest area by the
user agency.

13. It will be the responsibility of the User Agency to ensure that the labourers and
staff engaged in construction activity do not damage the nearby forest flora
and fauna.

14. The User Agency shall provide LPG to the labourers and the staff working at
the site so as to avoid any damage and pressure on the nearby forest areas for
collection of firewood for their use.
15. The lay out plan of the proposed forest land shall not be changed without prior approval of the Ministry of Environment, Forests and Climate Change.

16. The forest land proposed for diversion shall, under no circumstances, be transferred to any other agency, department or person without prior approval of the Ministry of Environment, Forest and Climate Change.

17. The user agency and the State Government shall ensure compliance to provisions of the all Acts, Rules, Regulations and Guidelines, for the time being in force, as applicable to the project.

18. Any other conditions that the Ministry of Environment, Forests and Climate Change may impose from time to time in the interest of afforestation, conservation and management of flora and fauna in the area, shall be complied by the user agency.

After receipt of the compliance report on fulfillment of the conditions as stipulated above, from the State Government, formal approval will be issued in this regard under Section 2 of Forest (Conservation) Act, 1980. Transfer of forest land to user agency should not be effected by the State Government till formal order approving diversion of forest land is issued by the Central Government. To facilitate speedy execution of projects involving linear diversion, the in-principle approval may be deemed as the working permission for tree felling and commencement of work, if the required funds for CA, NPV and all other compensatory levies specified in the in-principle approval are realised from the user agency and accordingly the State Government, by passing an order, may allow the commencement of work of the linear project in forest land for a period of one year (The detail guideline issued vide Ministry letter No. 11-306/2014-FC, dated 20.08.2015 may be referred).

Yours faithfully,

(Vasanta Kiran Babu)
Dy. Conservator of Forests (Central)
